B&C
BARESI & CAINE

THE STORY OF BARESI & CAINE

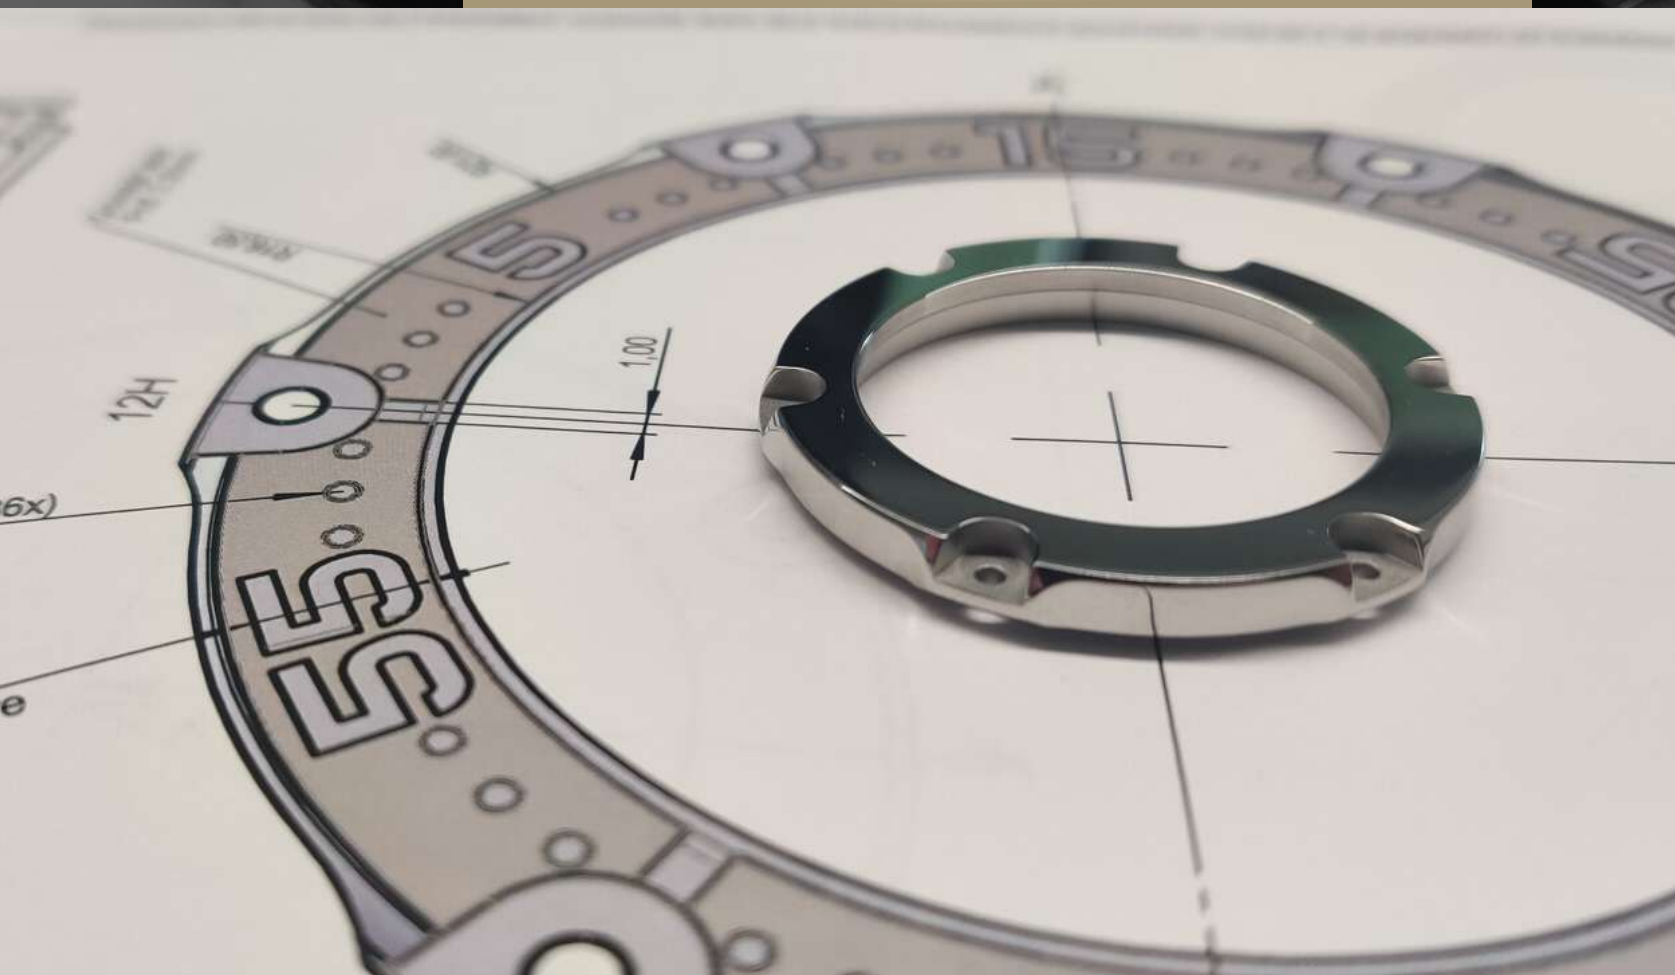

Our story begins in early 2016 with our Company Founder's first visit to Rome, Italy. Overwhelmed with the vast architecture and beautiful materials, specifically the Fontana dei Quattro Fiumi at Piazza Navona, and with a lifelong love for watches, he had the vision that he would design and create a timepiece for himself made from marble, capturing the beauty and luxury of the material in a small wearable piece.

Several months later he began development of the first of the Baresi & Caine Collection timepiece which moved from initial concept to final design and manufacture in twelve months.

CONCEPT & DESIGN

Four years later, in Spring 2020, with numerous concept's and designs completed and with designs in development, with a hunger to expand the business and to make his brand known, Baresi & Caine approached and agreed to a partnership with a designer with over 20 year's experience in conceptual and detail design. This partnership was the beginning of the Stella Luce and Sportivo Lusso, our 2022 Collection.

MARBLE DIALS FROM TUSCANY

Baresi & Caine timepieces feature exquisite designs designed and manufactured using a high grade selection of marbles from around the world. Each individual marble dial is completely unique, no Baresi & Caine watch will ever look the same.

CARRARA

Baresi & Caine utilise Carrara marble specifically sourced from The Apuane Alps in the central region of Tuscany, a mountain range in central Italy. A world-famous highly sought after ice white marble with grey blue veins, stating undeniable beauty.

NERO PORTORO

Quarried in Italy, Nero Portoro marble is naturally opulent which transpires to give diversity to the timepiece. This beauty is evident within the deep lacunas of jet black and mesmerising golden veins, a most perfect combination of elegance.

BLUE SODALITE

Precious, rare, stupefying. The vibrant beauty of Blue Sodalite makes every Baresi & Caine timepiece distinctive, Thanks to the shallow chromatic mixes, sophisticated and intense, and the material's resilience, this fine natural stone earned its place in our luxury collection.

LA CHAUX-DE-FONDS SWITZERLAND

Baresi & Caine strived to be the best as a watch brand and collaborated with working partners in La Chaux-De-Fonds, Switzerland. This epicentre of watchmaking is the birthplace of all Baresi & Caine timepieces.

STELLA LUCE
COLLECTION I

STAR LIGHT

When style and statement is everything the Stella Luce 'STAR LIGHT' is the only choice. This watch combines classic luxury and modern smooth lines to create a striking yet timeless look.

Handcrafted to perfection, the Stella Luce has a choice of three stunning marble dials; Blue Sodalite, Italian Carrara and Nero Portoro.

LET THERE BE LIGHT

To reveal the opulent aesthetics of the Swiss automatic movement, the Stella Luce features a stunning double anti reflective coated sapphire showcase back.

This theme is continued throughout via its ingeniously engineered 1ct diamond set crown along with the accompanying diamond set bezel and diamond set caseback. Each diamond emits a subtle starlight glow throughout the night.

This is a first in watchmaking history.

An astonishingly complex engineering feat accomplished by incorporating each diamond in an ultra-modern dodecagon screw head and crown, exclusively developed in-house by Baresi & Caine.

Designed and crafted to the highest possible standards, you can be assured of a robust, reliable and accurate timekeeper whose quality and looks are perfectly matched.

With Super Luminous hands offset against the smooth sweeping second hand this watch is a true statement piece.

Finished with double anti-reflective coating on the sapphire glass, every detail of this magnificent timepiece marks it out as Baresi & Caine.

The Stella Luce is available in 18ct Gold, 18ct Rose Gold, Platinum, White Zirconia, Black Zirconia and 904L Stainless Steel.

SPORTIVO LUSO

COLLECTION II

STRENGTH IN DESIGN

Encapsulating its familial DNA from the Modello Stella Luce, the Sportivo Lusso builds on that successful design ethos by incorporating subtle visual clues which hint at its heritage.

A watch respecting the foundations of the luxurious Stella Luce, evincing a strong and masculine character whilst combining all new features, such as wider lugs, broader shoulders and unique Arabic numerals complementing the Bezel & Marble Dial.

Beautifully sculpted surfaces highlight the intricate detail of the Bezel and Case Back which ingeniously harness diamond set screws.

Another dash of uniqueness in watchmaking brought to you by Baresi & Caine.

The stunning fascia is complemented by the intricate bezel surround which gloriously counterpoints the smooth lines of the case to create a feel of luxury and substance.

A TRUE STATEMENT PIECE

A CREATION ADMIRER

Working with the most luxurious materials available, the Sportivo Lusso is a horological creation which can be truly admired. Every Sportivo Lusso timepiece is complimented with either a sports rubber or leather strap, both combined with our own unique fold-over clasp.

A Baresi & Caine timepiece is a one of a kind, bespoke to every client, truly understated and effortlessly stylish timepiece. Each one is born with its own unique number registered to each individual customer.

THE LUCE
COLLECTION III

The Piazza Navona is one of the most beautiful and famous squares in Rome with its splendid Baroque masterpieces by Bernini and Borromini, the beautiful marble statues were the light of inspiration that inspired Baresi & Caine to design The Luce.

The Luce is a timepiece that exudes elegance and sophistication. Unlike its counterpart, the Stella Luce, it doesn't feature any diamonds. However, this doesn't detract from its beauty, as the watch is designed to make a statement on its own.

One of the most notable features of The Luce is its dial, which is made from Carrara marble mined from Tuscany. This exquisite material gives the watch a unique and timeless quality that is unparalleled by other timepieces.

THE FOUNTAIN OF THE FOUR RIVERS

The inspiration for The Luce came from the company director's first visit to Rome, where he was struck by the beauty of the Piazza Navona. The grandeur of the architecture and the elegance of the fountains and sculptures left a lasting impression on him, and he decided to create a watch that captured that same sense of distinction and elegance.

The craftsmanship that has gone into creating The Luce is truly exceptional. From the precision of the Swiss automatic BC100-S movement to the attention to detail in the design, every aspect of the watch has been carefully considered and executed to the highest standards. The leather strap is made from the finest Italian leather and comes with a choice of colours. The stainless steel case has been expertly crafted to ensure durability and longevity.

The Luce by Baresi & Caine is a beautiful watch that stands out from the crowd. The sleek lines and smooth edges really sets it apart from other watches, while its excellent craftsmanship ensures that it will last for years to come. This is a timepiece that is sure to turn heads and make a statement wherever it is worn.

Baresi & Caine is a brand that prides itself on its attention to detail. The company has a reputation for producing watches that are not only beautiful but also meticulously crafted. One example of this is the screws used in The Luce.

The design of the screws were inspired by the Roman columns, which are known for their elegance and strength. By incorporating this design element, Baresi & Caine has added an extra level of visual interest to the watch.

Indeed all Baresi & Caine watches, exude the spirit and energy of Italy. The country is known for its rich history, art, and culture, and this is reflected in the design of the watch. The attention to detail, the use of fine materials, and the incorporation of inspired Italian architecture all contribute to a watch that bursts with life and vitality.

To truly appreciate the beauty and complexity of the BC100-S movement, it features a showcase back that allows the wearer to see the intricate inner workings of the watch. This is a feature that is sure to impress any watch enthusiast and is a testament to the attention to detail that goes into the design and construction of each timepiece.

This is a watch designed to last for generations. The movement's accuracy is achieved through a combination of high-quality materials and expert craftsmanship. The Swiss automatic movement is renowned for its reliability and is widely considered one of the best in the industry. Baresi & Caine has taken this already impressive technology and enhanced it even further, ensuring that each timepiece they create is both precise and reliable.

In addition to its technical prowess, the BC100-S movement is also aesthetically pleasing. The rotor is decorated with the beautiful Baresi & Caine logo, adding a touch of elegance to this stunning creation.

Its beauty and reliability ensure that it will be cherished for generations to come, making it an excellent investment for watch enthusiasts and collectors alike.

THE SPORTIVO
18CT YELLOW GOLD

The Sportivo by Baresi & Caine is a true work of art, crafted from solid 18ct yellow gold and designed with both style and functionality in mind.

The first thing that strikes you about the Sportivo is its elegant design. The watch face crafted from Italian Carrara marble is clean and simple, The 18ct yellow gold casing is sleek and perfectly complements the timeless design of the watch.

What really sets the Sportivo apart, however, is the quality of the materials used in its construction. The 18ct yellow gold is solid, and the sapphire crystal glass is scratch-resistant and highly resilient. This is a timepiece that will last for generations.

The Baresi and Caine Sportivo is a stunning watch that perfectly balances style and substance. Its combination of exquisite design and high-quality materials make it a true masterpiece, and an investment that any watch collector would be proud to own.

THE LADY LUCE

COLLECTION V

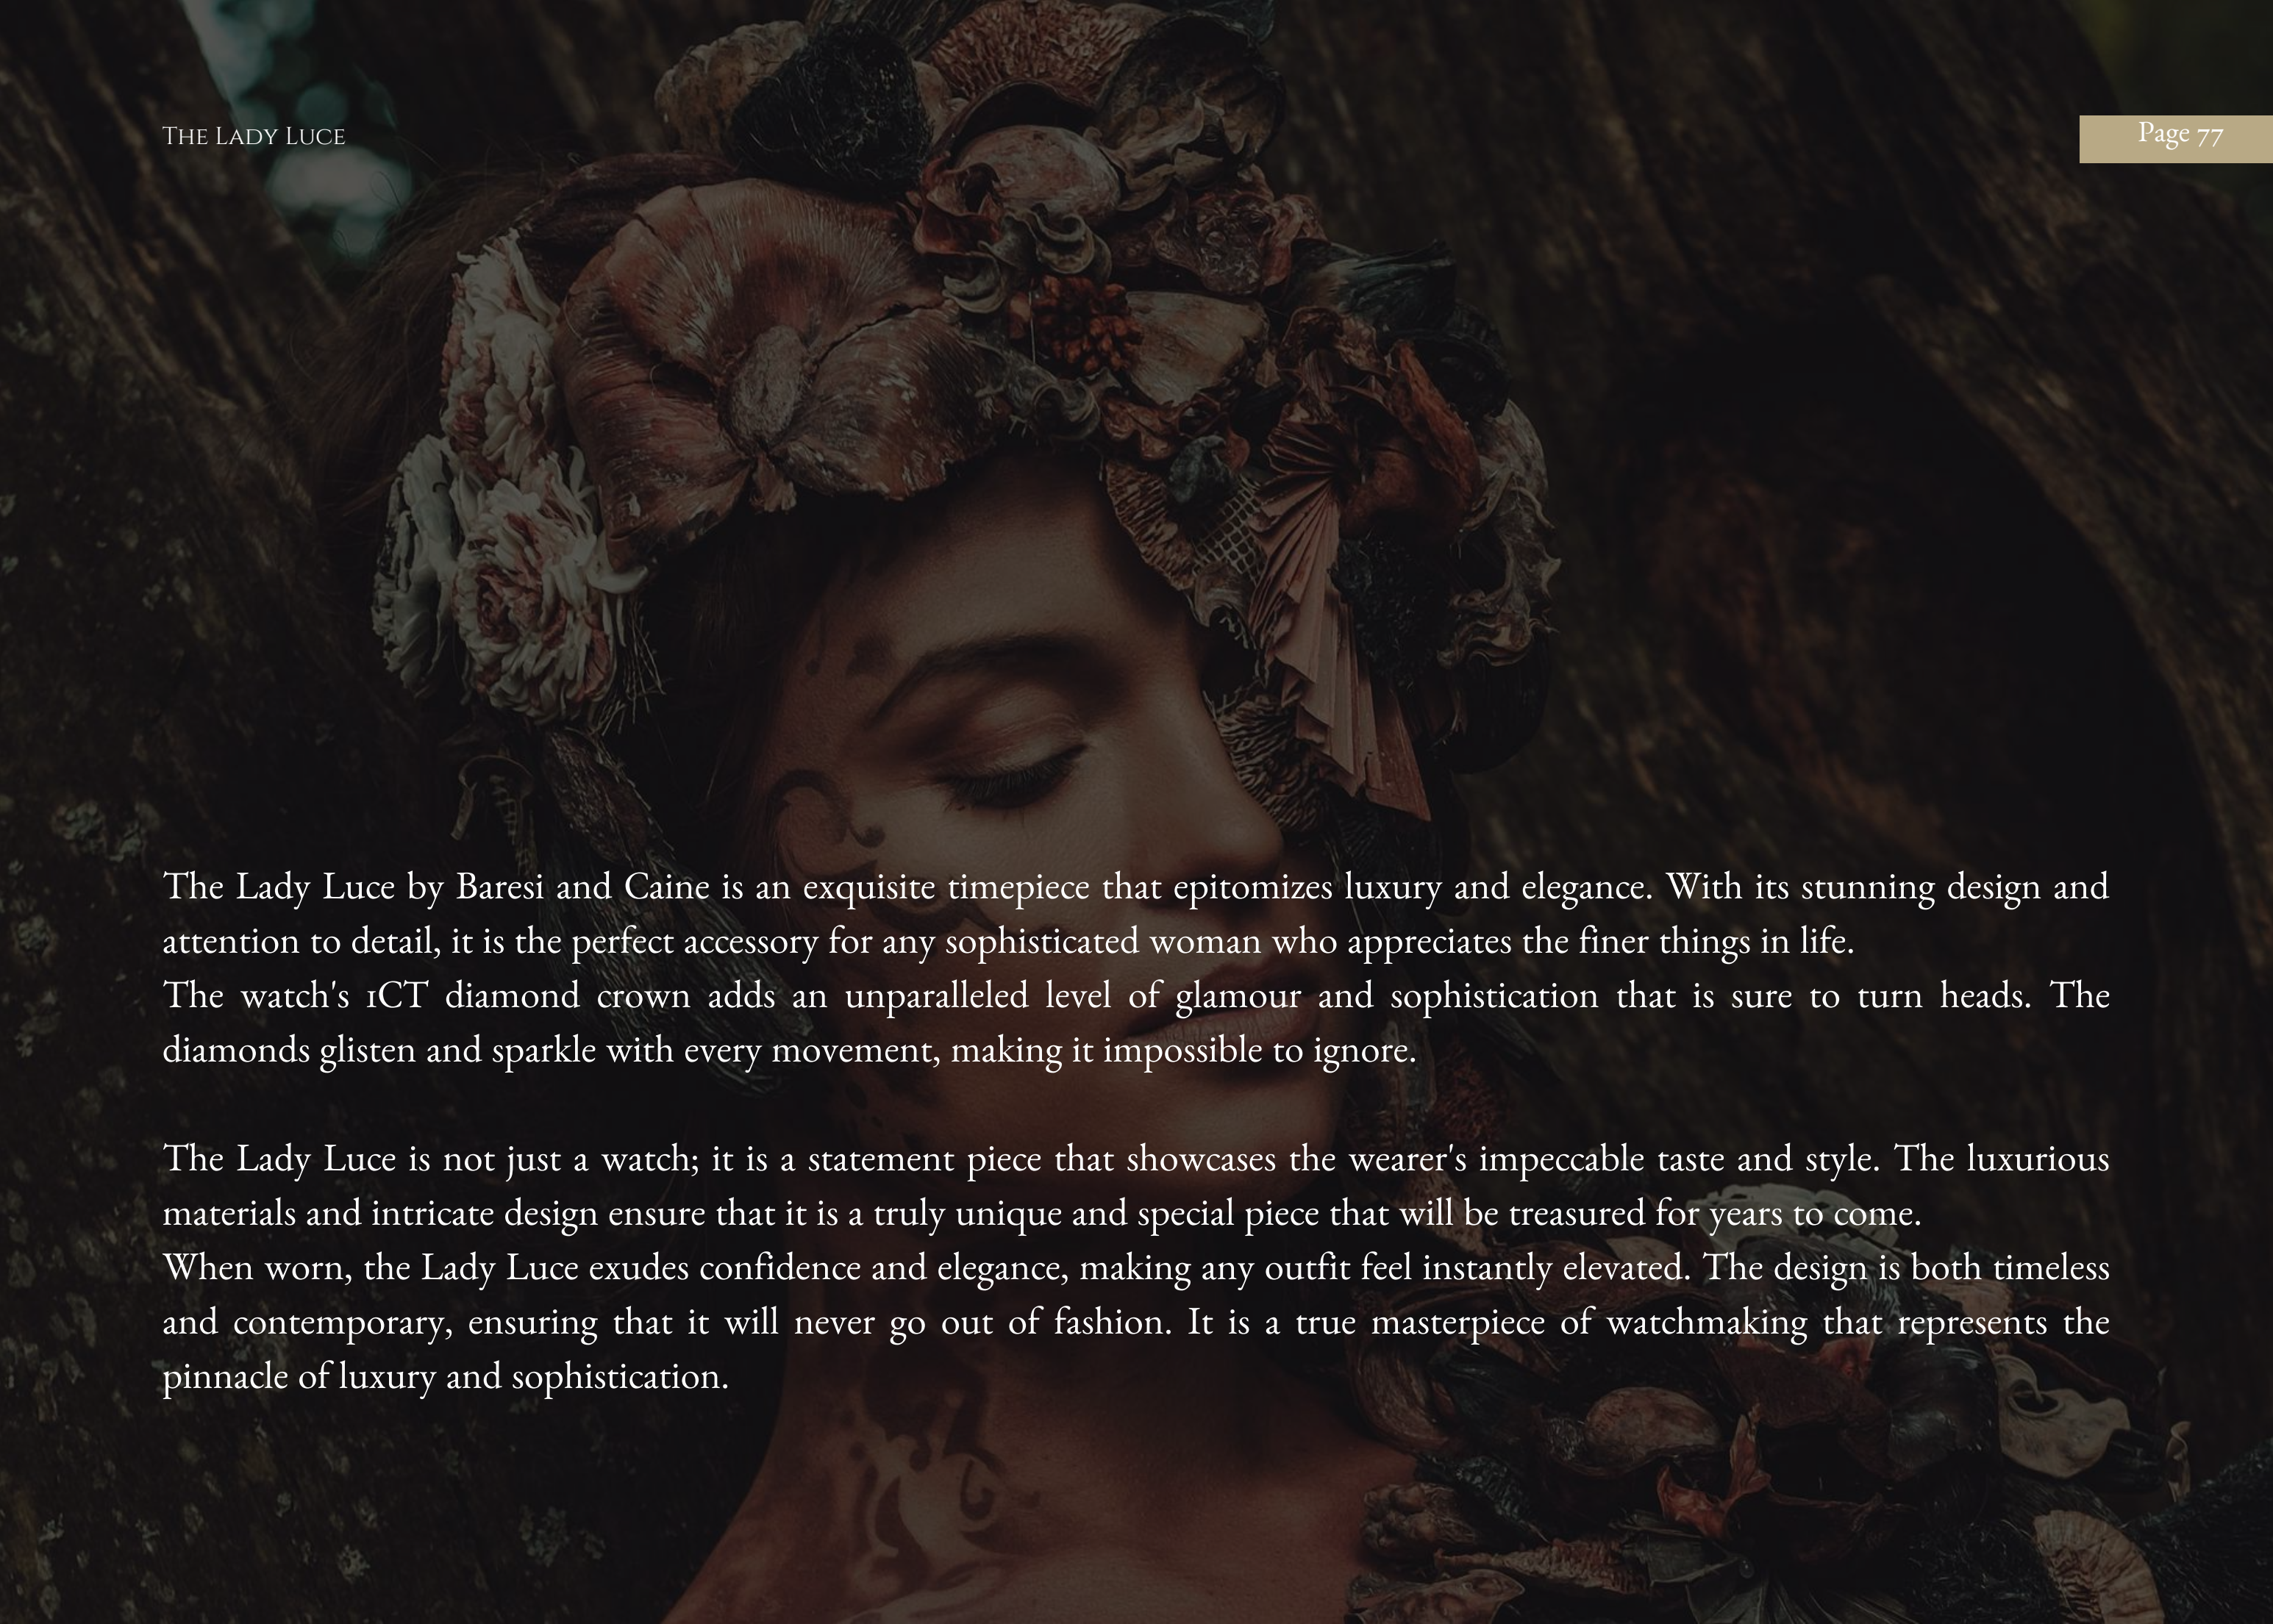

"IF TIME IS ALL WE HAVE, MAKE A STATEMENT."

BARESI & CAINE

The Lady Luce features a total of 24 diamonds, including 3 baguette diamonds and 20 round cut diamonds. The diamonds are carefully fitted to perfection on the Italian Carrara marble dial, which adds to the watch's elegance and luxurious appearance. The 3 baguette diamonds are strategically placed at the six, nine and twelve o'clock positions on the dial to provide a subtle contrast to the round cut diamonds.

A close-up, low-angle shot of a woman's face, looking down. She is wearing a large, ornate crown made of dried flowers and leaves. Her face is painted with intricate designs, including a large, dark, swirling pattern on her forehead and cheek. The background is dark and textured, possibly a wall or a large tree trunk.

The Lady Luce by Baresi and Caine is an exquisite timepiece that epitomizes luxury and elegance. With its stunning design and attention to detail, it is the perfect accessory for any sophisticated woman who appreciates the finer things in life.

The watch's 1CT diamond crown adds an unparalleled level of glamour and sophistication that is sure to turn heads. The diamonds glisten and sparkle with every movement, making it impossible to ignore.

The Lady Luce is not just a watch; it is a statement piece that showcases the wearer's impeccable taste and style. The luxurious materials and intricate design ensure that it is a truly unique and special piece that will be treasured for years to come.

When worn, the Lady Luce exudes confidence and elegance, making any outfit feel instantly elevated. The design is both timeless and contemporary, ensuring that it will never go out of fashion. It is a true masterpiece of watchmaking that represents the pinnacle of luxury and sophistication.
