Page 100-101	Our World

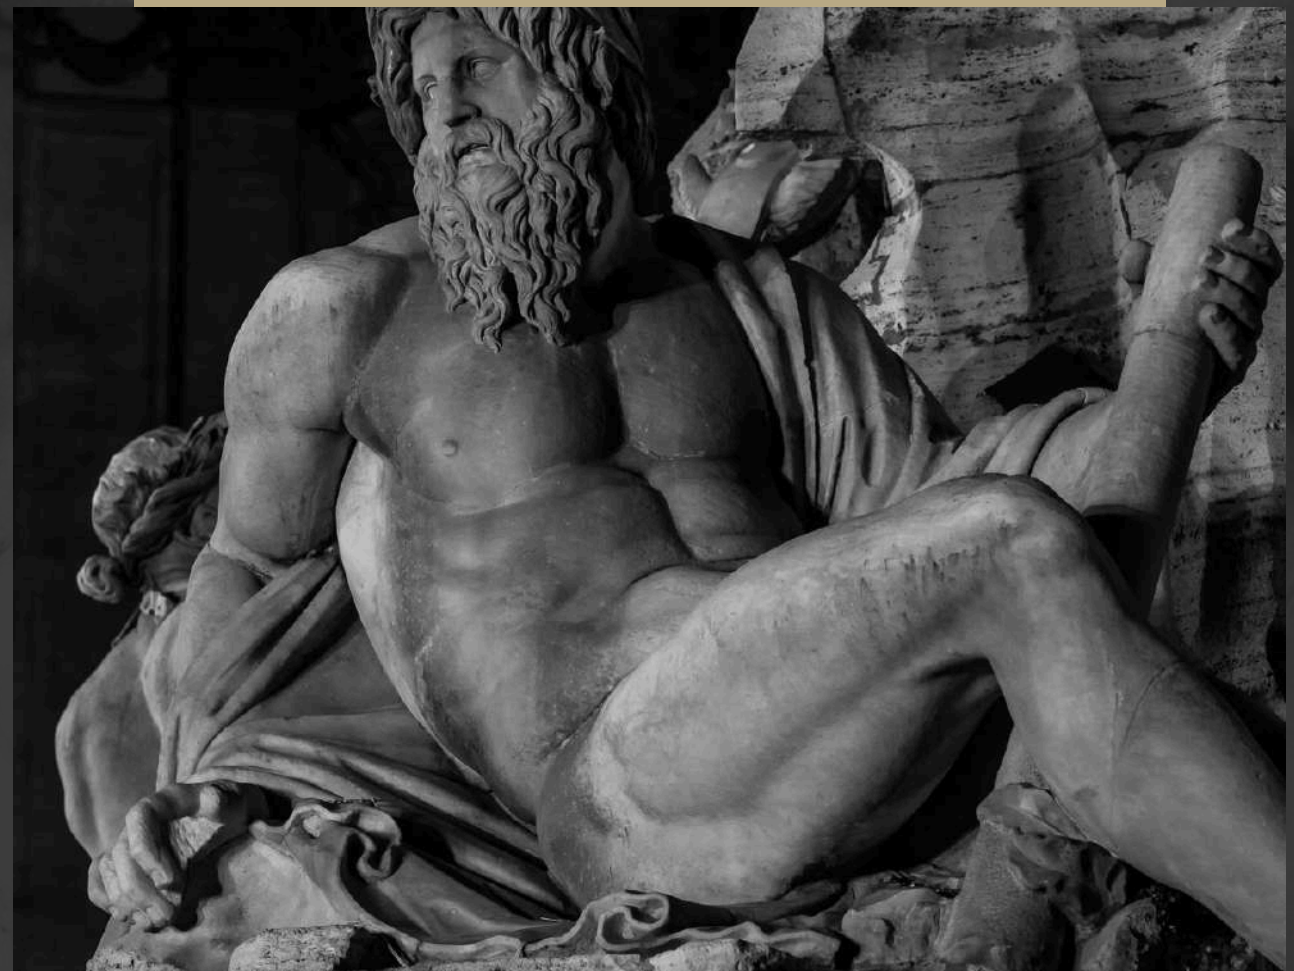

Our story begins in early 2016 with our Company Founder's first visit to Rome, Italy. Overwhelmed with the vast architecture and beautiful materials, specifically the Fontana dei Quattro Fiumi at Piazza Navona, and with a lifelong love for watches, he had the vision that he would design and create a timepiece for himself made from marble, capturing the beauty and luxury of the material in a small wearable piece.

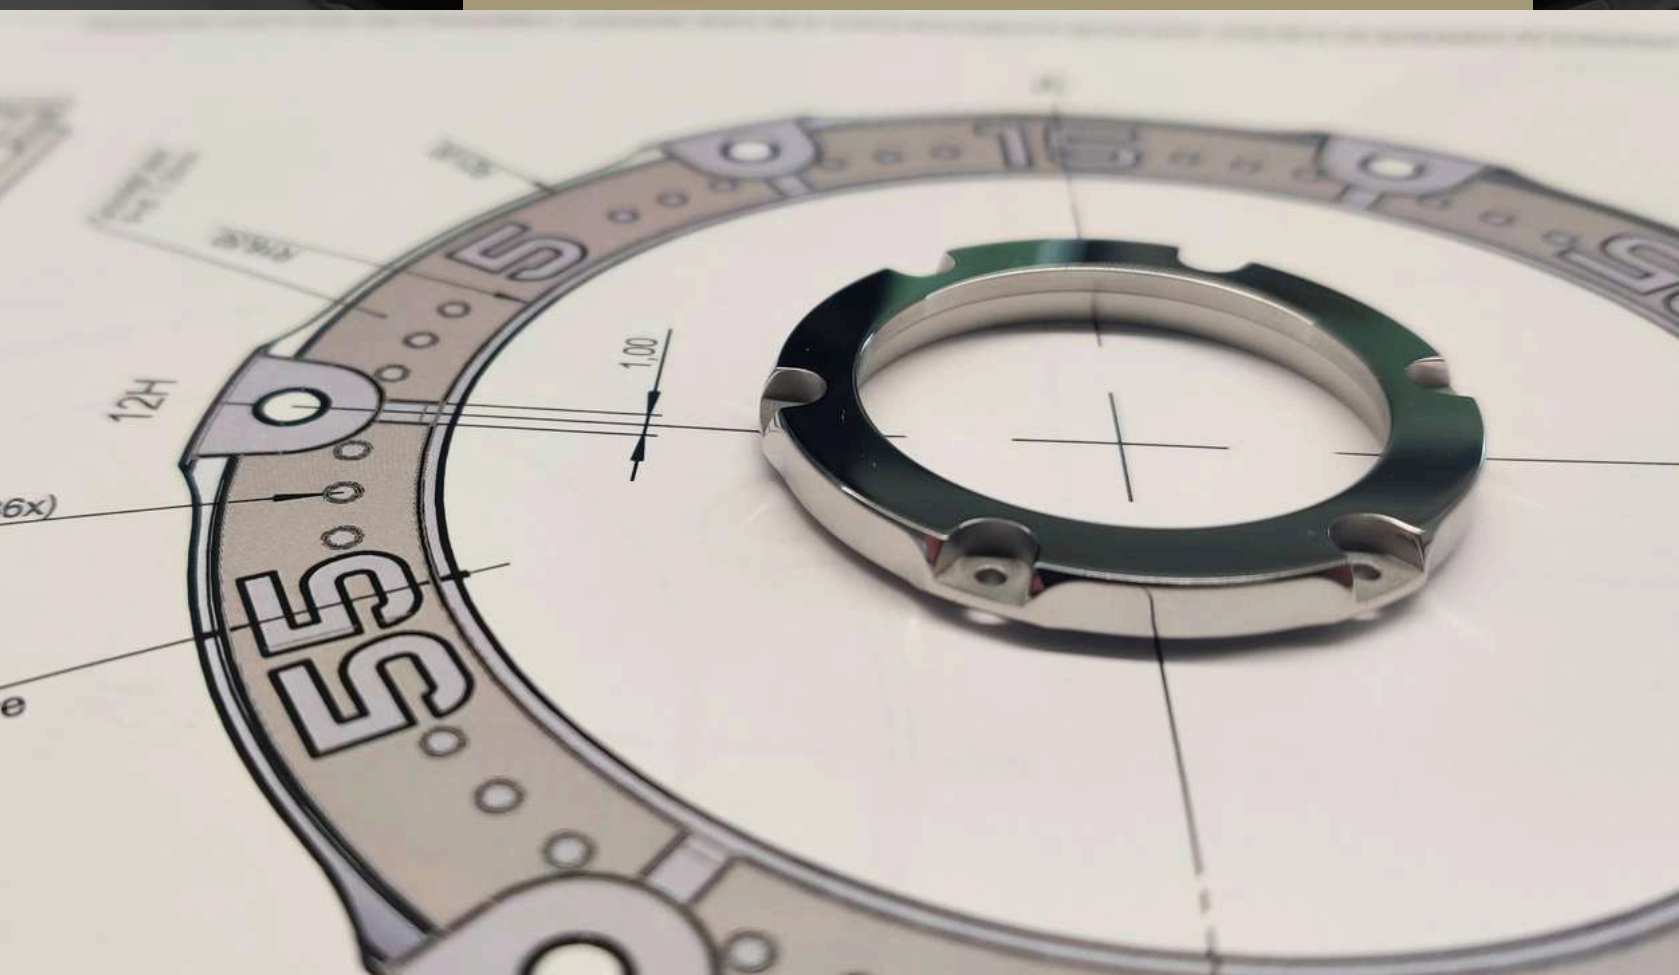

Several months later he began development of the first of the Baresi & Caine Collection timepiece which moved from initial concept to final design and manufacture in twelve months.

## THE STORY OF BARESI & CAINE

# CONCEPT & DESIGN

Four years later, in Spring 2020, with numerous concept's and designs completed and with designs in development, with a hunger to expand the business and to make his brand known, Baresi & Caine approached and agreed to a partnership with a designer with over 20 year's experience in conceptual and detail design. This partnership was the beginning of the Stella Luce and Sportivo Lusso, our 2022 Collection.

Baresi & Caine timepieces feature exquisite designs, crafted using a high-grade selection of marbles and natural stones sourced from around the world. Each dial is entirely unique, ensuring that no two Baresi & Caine watches will ever be the same.

From the timeless elegance of Carrara marble, quarried from the Apuane Alps in Tuscany with its ice-white surface and delicate grey-blue veins, to the opulent depth of Nero Portoro, where jet-black stone is illuminated by golden streams, every detail speaks of refinement.

The vibrant allure of Blue Sodalite adds distinctive character through its sophisticated chromatic blends, while White Onyx offers a sense of purity and light, perfectly balanced by the bold strength of Black Onyx. Completing this rich palette, the passion and prestige of Rosso Marble, with its warm crimson tones and striking veining, provides a final flourish of rarity and distinction.

Each stone, precious and enduring, is carefully selected not only for its beauty but also for its individuality making every Baresi & Caine timepiece a true one-of-a-kind masterpiece.

## MARBLE DIALS FROM TUSCANY

## PRECIOUS METALS

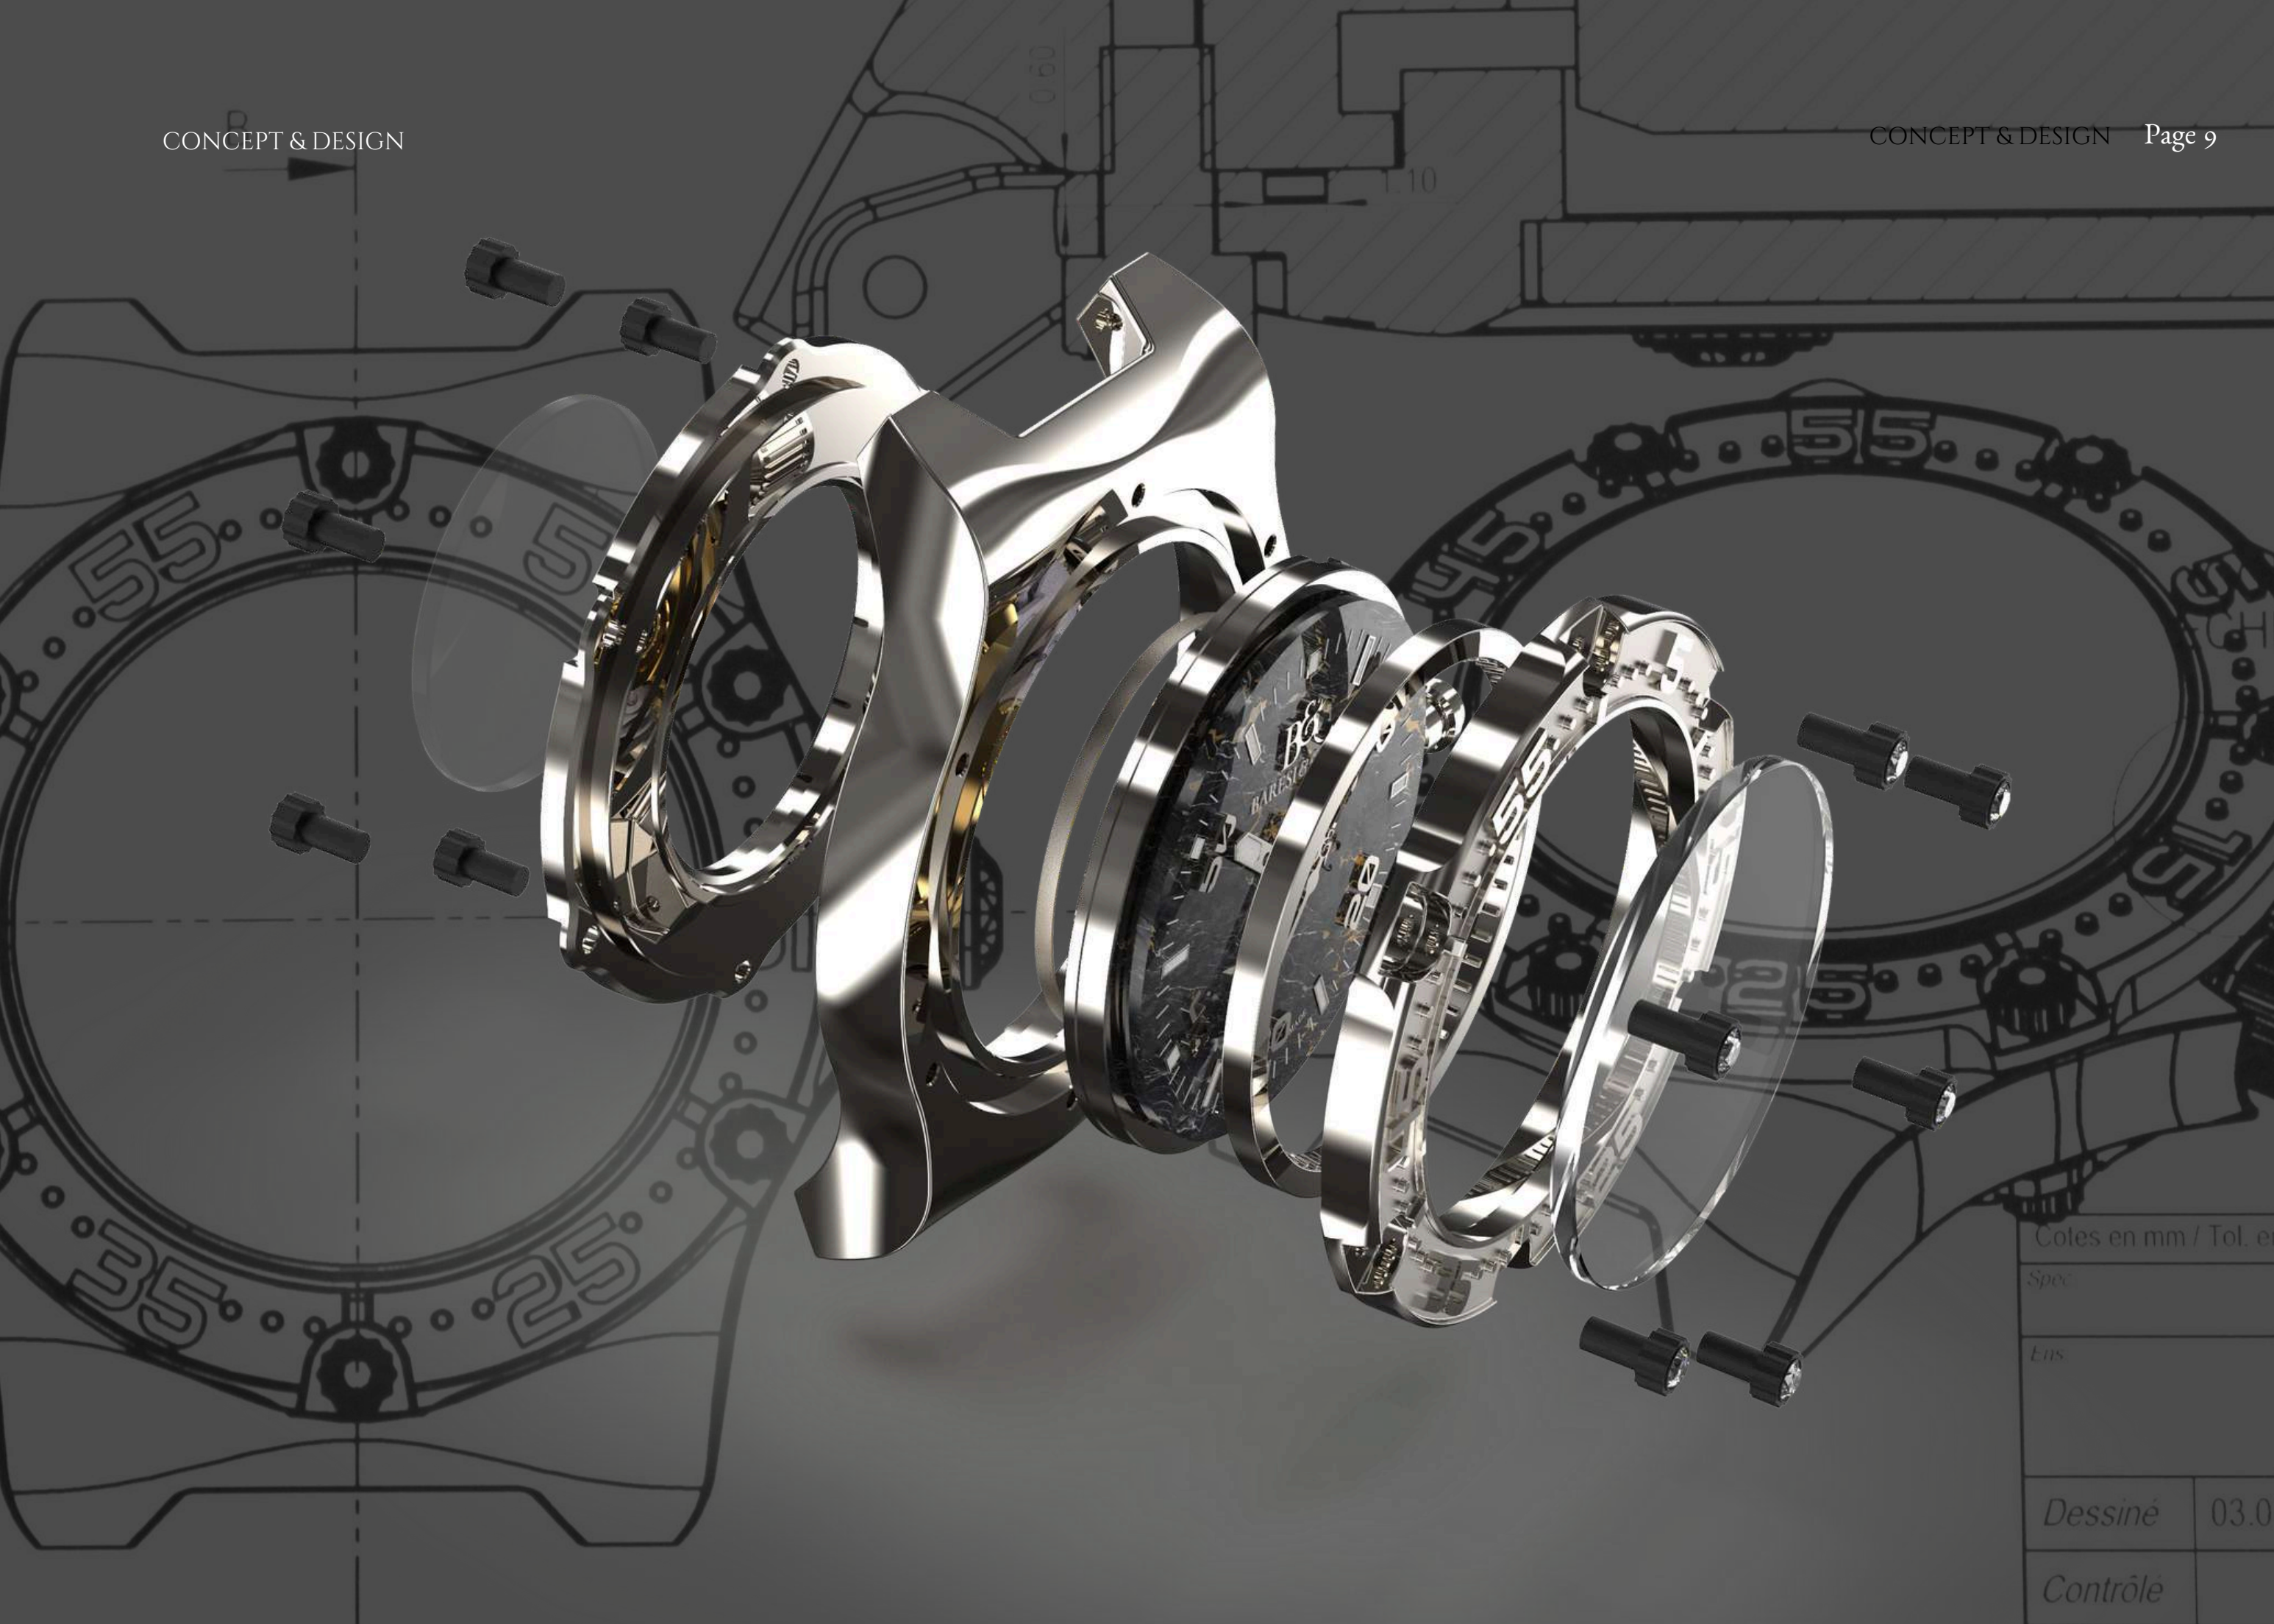

In addition to the unrivalled beauty of our natural stone dials, every Baresi & Caine timepiece is crafted with the finest selection of precious metals and advanced materials, chosen for both their enduring quality and distinctive character.

The timeless prestige of 18ct Yellow Gold radiates warmth and tradition, while 18ct Rose Gold offers a more contemporary expression of elegance, with subtle copper hues that catch the light in sophisticated harmony. For those who seek rarity beyond compare, Platinum provides an exceptional brilliance and weight, its purity symbolising true exclusivity.

Strength and innovation are embodied in Titanium Timascus, a remarkable fusion of resilience and artistry where distinctive layered patterns make every case a visual masterpiece. Equally refined, Stainless Steel ensures durability and timeless appeal, elevated further through a black PVD coating that transforms the material into a stealth-like expression of modern luxury.

Every choice of metal, whether steeped in tradition or driven by innovation, reflects Baresi & Caine's uncompromising commitment to quality, individuality, and distinction—ensuring that each timepiece is as enduring as it is extraordinary.

COLLECTION I

# STAR LIGHT

When style and statement is everything the Stella Luce 'STAR LIGHT' is the only choice. This watch combines classic luxury and modern smooth lines to create a striking yet timeless look.

Handcrafted to perfection, the Stella Luce has a choice of three stunning marble dials; Blue Sodalite, Italian Carrara and Nero Portoro.

## LET THERE BE LIGHT

To reveal the opulent aesthetics of the Swiss automatic movement, the Stella Luce features a stunning double anti reflective coated sapphire showcase back.

This theme is continued throughout via its ingeniously engineered diamond set crown along with the accompanying diamond set bezel and diamond set caseback. Each diamond emits a subtle starlight glow throughout the night.

This is a first in watchmaking history.

An astonishingly complex engineering feat accomplished by incorporating each diamond in an ultra-modern dodecagon screw head and crown, exclusively developed in-house by Baresi & Caine.

# SPORTIVO LUSO

## COLLECTION II

## STRENGTH IN DESIGN

Encapsulating its familial DNA from the Modello Stella Luce, the Sportivo Lusso builds on that successful design ethos by incorporating subtle visual clues which hint at its heritage.

A watch respecting the foundations of the luxurious Stella Luce, evincing a strong and masculine character whilst combining all new features, such as wider lugs, broader shoulders and unique Arabic numerals complementing the Bezel & Marble Dial.

# A TRUE STATEMENT PIECE

The Sportivo Lusso is defined by beautifully sculpted surfaces that showcase the intricate artistry of the bezel and case back, ingeniously secured with diamond-set screws—a hallmark of innovation and distinction in modern watchmaking.

The stunning dial is framed by an exquisitely detailed bezel, its precision design offering a striking counterpoint to the smooth, flowing lines of the case. Together, they create a perfect balance of refinement and presence, elevating each watch into a true statement of luxury and substance.

## A CREATION ADMIRER

The Sportivo Lusso stands as the distinguished bigger brother of the Stella Luce, a timepiece that unites refined elegance with technical mastery. Crafted from only the most luxurious materials, it is a horological creation designed to be admired not only for its beauty but also for its precision engineering.

With its bold yet balanced proportions, the Sportivo Lusso has been meticulously sculpted to deliver both presence and performance. Each model is complemented with a choice of either a hand-finished leather strap, offering classic sophistication, or a sports-inspired rubber strap engineered for resilience. Both options are secured with Baresi & Caine's bespoke fold-over clasp, ensuring an effortless combination of comfort, durability, and elegance.

At the heart of every Sportivo Lusso lies individuality. Each piece is a distinctive expression of style, understated yet unmistakably refined. Every watch is assigned its own unique number, registered exclusively to its owner, a symbol of rarity and a lasting testament to the personal connection between client and creation.

# THE FOUNTAIN OF THE FOUR RIVERS

The Piazza Navona is one of the most beautiful and famous squares in Rome with its splendid Baroque masterpieces by Bernini and Borromini, the beautiful marble statues were the light of inspiration that inspired Baresi & Caine to design The Luce.

The Luce is a timepiece that exudes elegance and sophistication. Unlike its counterpart, the Stella Luce, it doesn't feature any diamonds. However, this doesn't detract from its beauty, as the watch is designed to make a statement on its own.

One of the most notable features of The Luce is its dial, which is made from Carrara marble mined from Tuscany. This exquisite material gives the watch a unique and timeless quality that is unparalleled by other timepieces.

The inspiration for The Luce came from the company director's first visit to Rome, where he was struck by the beauty of the Piazza Navona. The grandeur of the architecture and the elegance of the fountains and sculptures left a lasting impression on him, and he decided to create a watch that captured that same sense of distinction and elegance.

The craftsmanship that has gone into creating The Luce is truly exceptional. From the precision of the Swiss automatic BC102MR movement to the attention to detail in the design, every aspect of the watch has been carefully considered and executed to the highest standards. The leather strap is made from the finest Italian leather and comes with a choice of colours. The stainless steel case has been expertly crafted to ensure durability and longevity.

The Luce by Baresi & Caine is a beautiful watch that stands out from the crowd. The sleek lines and smooth edges really sets it apart from other watches, while its excellent craftsmanship ensures that it will last for years to come. This is a timepiece that is sure to turn heads and make a statement wherever it is worn.

Baresi & Caine is a brand that prides itself on its attention to detail. The company has a reputation for producing watches that are not only beautiful but also meticulously crafted. One example of this is the screws used in The Luce.

The design of the screws were inspired by the Roman columns, which are known for their elegance and strength. By incorporating this design element, Baresi & Caine has added an extra level of visual interest to the watch.

Indeed all Baresi & Caine watches, exude the spirit and energy of Italy. The country is known for its rich history, art, and culture, and this is reflected in the design of the watch. The attention to detail, the use of fine materials, and the incorporation of inspired Italian architecture all contribute to a watch that bursts with life and vitality.

To truly appreciate the beauty and complexity of the BC102MR movement, it features a showcase back that allows the wearer to see the intricate inner workings of the watch. This is a feature that is sure to impress any watch enthusiast and is a testament to the attention to detail that goes into the design and construction of each timepiece.

This is a watch designed to last for generations. The movement's accuracy is achieved through a combination of high-quality materials and expert craftsmanship. The Swiss automatic movement is renowned for its reliability and is widely considered one of the best in the industry. Baresi & Caine has taken this already impressive technology and enhanced it even further, ensuring that each timepiece they create is both precise and reliable.

In addition to its technical prowess, the BC102MR movement is also aesthetically pleasing. The 18ct gold rotor is decorated with the beautiful Baresi & Caine logo, adding a touch of elegance to this stunning creation.

Its beauty and reliability ensure that it will be cherished for generations to come, making it an excellent investment for watch enthusiasts and collectors alike.

# SIMPLICITY

Simplicity, an often misunderstood concept.  
To pare an idea to its elemental state yet  
retain its essence, its form and function.  
That's the challenge.

We understand.

From the exquisite naivety of a Van Gogh painting, to the clean lines of the iconic Golden Gate bridge, these are ideas unfettered by the unnecessary, made stronger by their clarity.

BARESI & CAINE

SWITZERLAND

LADY LUCE  
COLLECTION V

"IF TIME IS ALL WE HAVE, MAKE A STATEMENT."

BARESI & CAINE

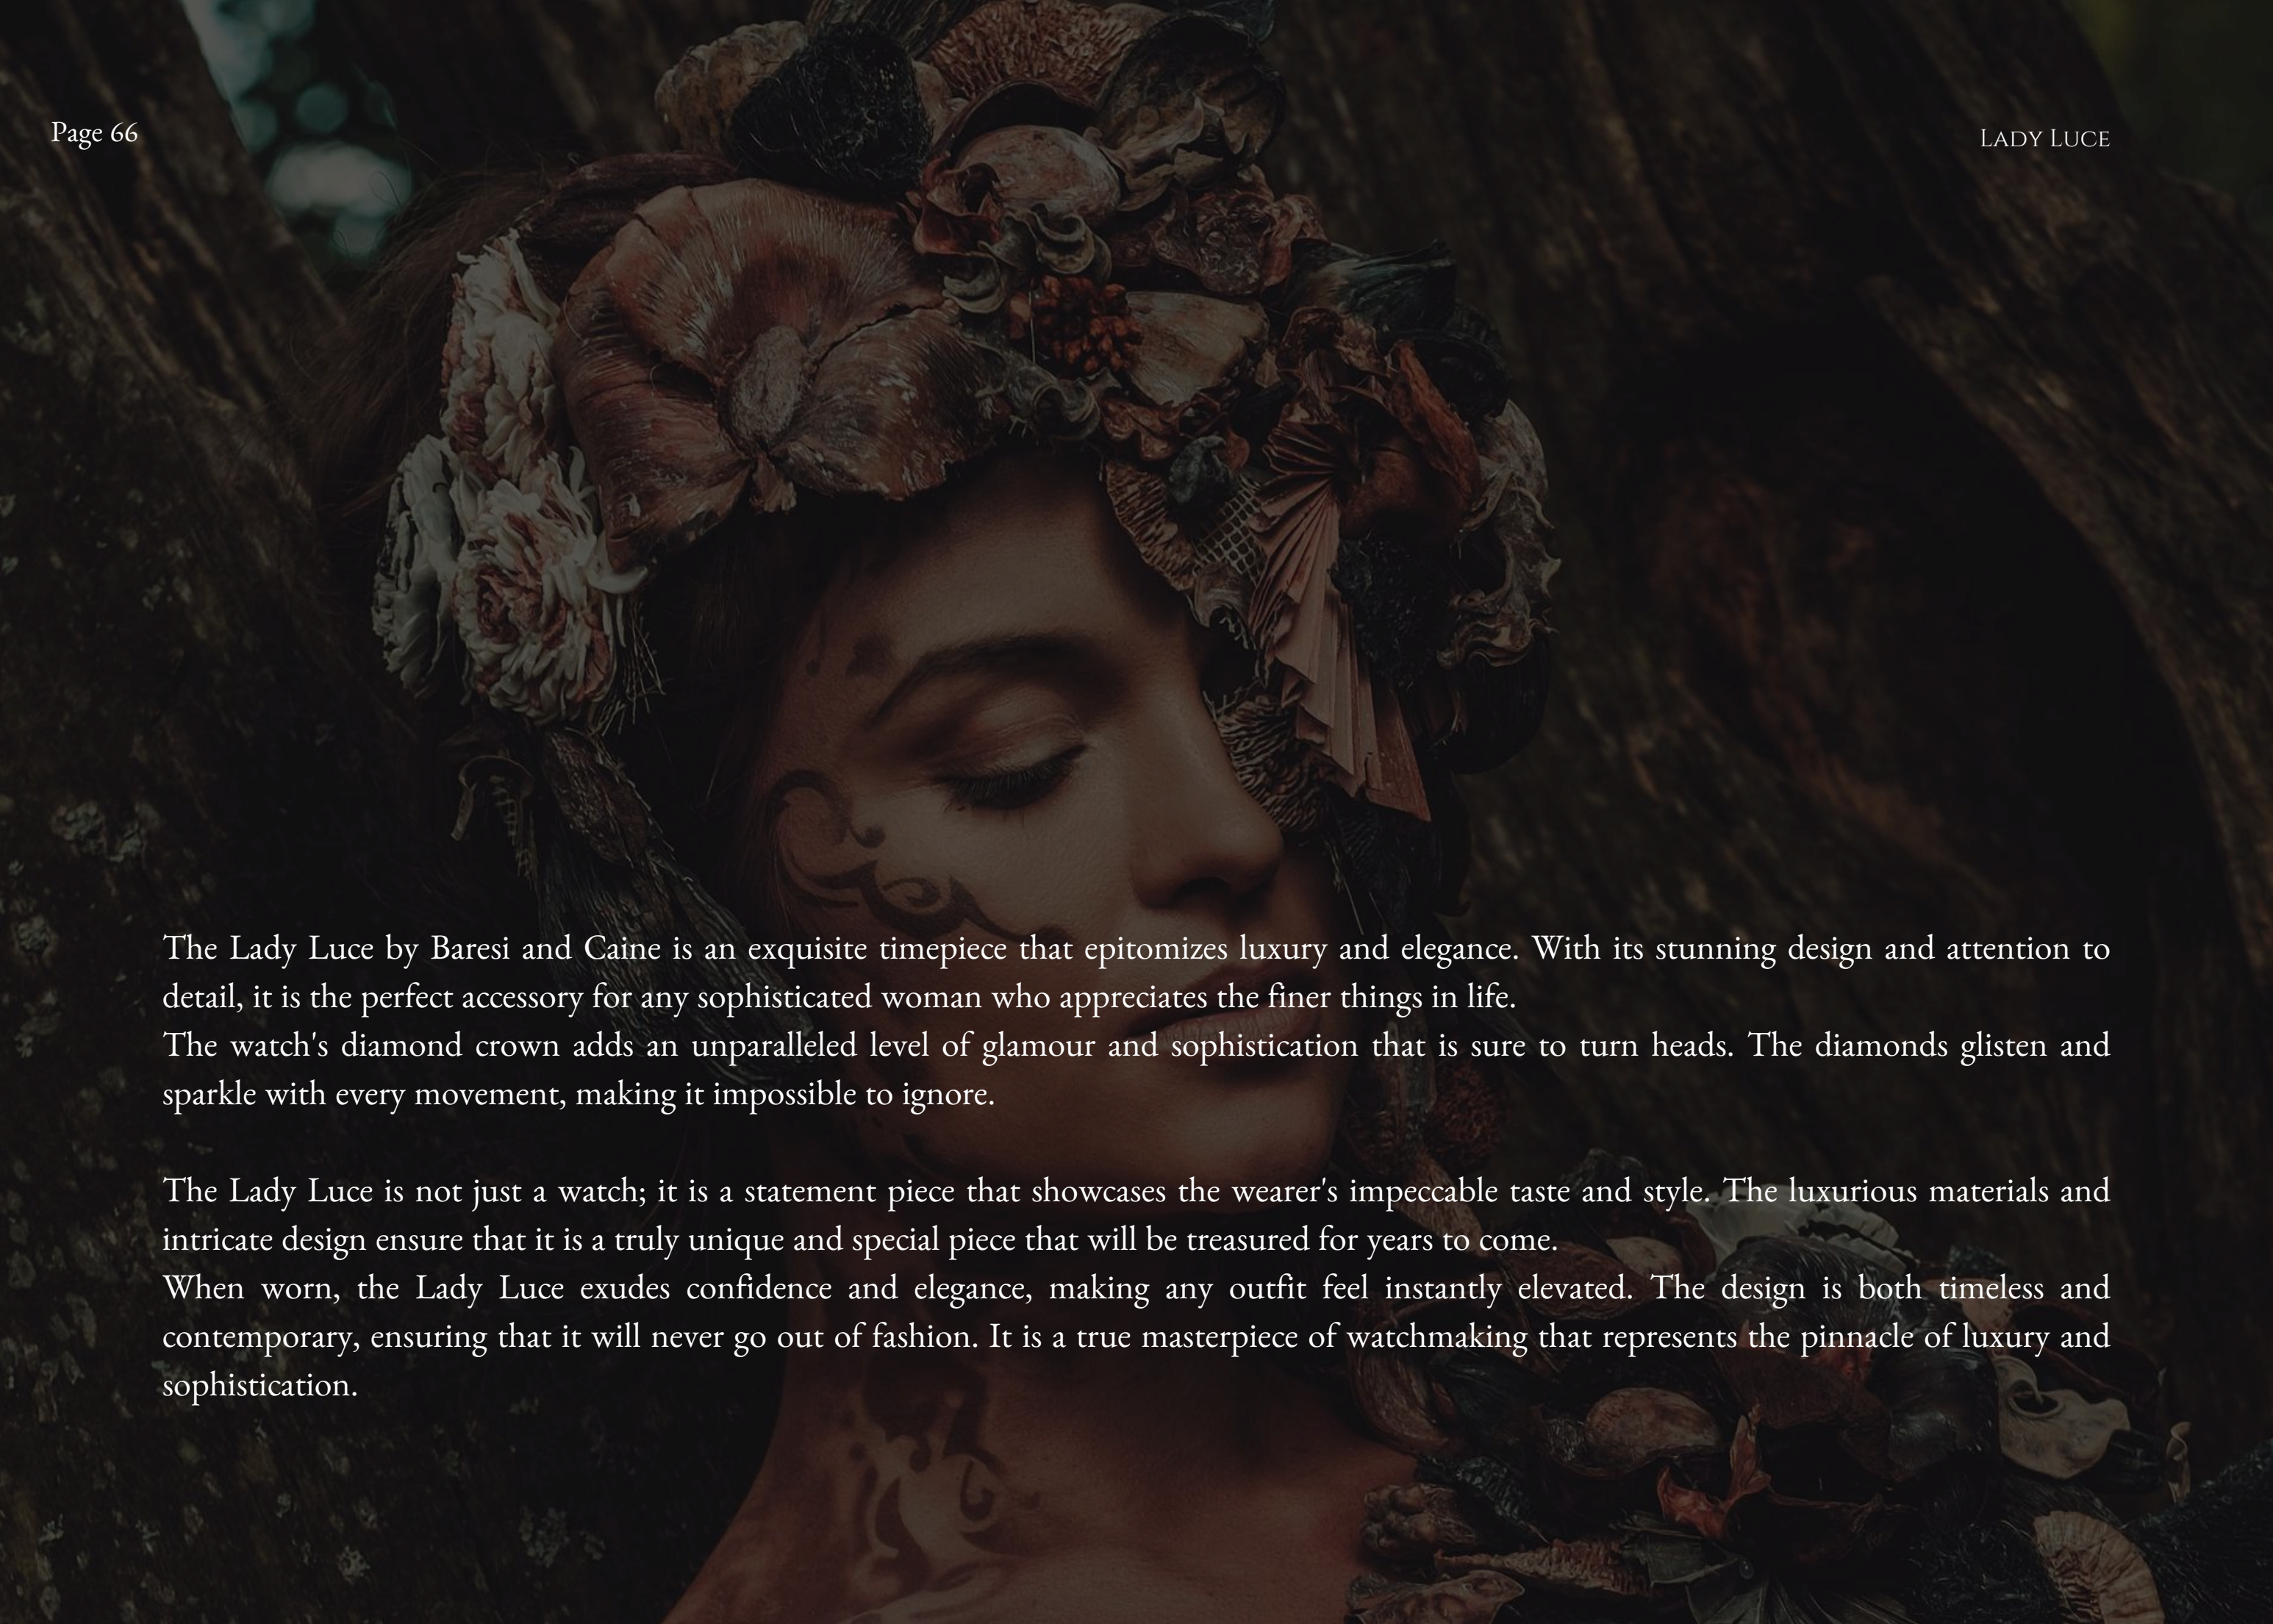

The Lady Luce features a total of 24 diamonds, including 3 baguette diamonds and 20 round cut diamonds. Each diamond is perfectly set to perfection on the Italian Carrara marble dial, which adds to the watch's elegance and luxurious appearance. The 3 baguette diamonds are strategically placed at the six, nine and twelve o'clock positions on the dial to provide a subtle contrast to the round cut diamonds.

A woman with a large, ornate floral headpiece and face paint, looking down. The headpiece is made of various dried flowers and leaves, including a large white flower on the left and a large brown flower on the right. She has dark, swirling face paint on her cheeks and forehead. The background is dark and textured, possibly a tree trunk.

The Lady Luce by Baresi and Caine is an exquisite timepiece that epitomizes luxury and elegance. With its stunning design and attention to detail, it is the perfect accessory for any sophisticated woman who appreciates the finer things in life.

The watch's diamond crown adds an unparalleled level of glamour and sophistication that is sure to turn heads. The diamonds glisten and sparkle with every movement, making it impossible to ignore.

The Lady Luce is not just a watch; it is a statement piece that showcases the wearer's impeccable taste and style. The luxurious materials and intricate design ensure that it is a truly unique and special piece that will be treasured for years to come.

When worn, the Lady Luce exudes confidence and elegance, making any outfit feel instantly elevated. The design is both timeless and contemporary, ensuring that it will never go out of fashion. It is a true masterpiece of watchmaking that represents the pinnacle of luxury and sophistication.

# ELEGANCE

It is said that elegance is indefinable. An ideal so elusive that it cannot be created. It exists..... Or it does not.

A quality of such subtlety that it is not recognised by everyone. But for those who see, it is unmistakable.

UNMISTAKABLE

Without introduction,  
Without explanation,  
Without question.

# BC102MR IN-HOUSE MOVEMENT

The In-House BC102MR Micro-Rotor Movement by Baresi & Caine is developed entirely in La Chaux-de-Fonds, Switzerland, to deliver superior performance through intelligent design and top-tier Swiss components. Engineered by Baresi & Caine's master horologists, the movement incorporates Swiss-made regulating organs, while bridges and main plates are produced in Baresi & Caine's workshops. The result is a timekeeping mechanism that exemplifies both precision and elegance.

## Ultra-Thin Calibre

With a compact thickness of just 3.70 mm, the BC102MR movement allows for slimmer, more elegant cases, ensuring the watch maintains a refined, streamlined profile.

## Bi-Directional Micro-Rotor

To optimize performance, the movement is equipped with a bi-directional oscillating micro-rotor made from 18ct Gold, achieving the ideal counterweight to enhance winding efficiency. This thoughtful construction secures an impressive 70-hour power reserve, providing reliable precision and longevity.

## Glucydur Balance Wheel

At the heart of the movement, the Glucydur balance wheel is crafted from a robust, low-expansion, non-magnetic alloy. This material offers exceptional resistance to deformation, magnetic interference, and temperature fluctuations, ensuring remarkable stability and accuracy. This highly resilient alloy underscores the movement's commitment to performance, making the BC102MR a paragon of both technical and aesthetic achievement for Baresi & Caine.

AQUILA TOURBILLON

# THE 9TH LEGION

In the mystical veils of ancient Caledonia, where history intertwines with legend, the proud and fearless 9th Legion of the Roman army once strode, the epitome of Rome's elite fighting force. Five thousand soldiers, endowed with resilience, power, and precision, vanished into the ethereal mist, leaving behind a legacy shrouded in enigma and myth.

Through the ages, their disappearance remained a puzzle, a testament to the capricious nature of destiny and the evanescence of greatness. Yet, as civilizations rose and fell, the memory of the 9th Legion endured, a symbol of valor and sacrifice that echoed through the corridors of time.

These warriors were no ordinary soldiers; they were the elite, entrusted with Rome's mightiest conquests. Each dawn saw them rise with the sun, spirits ablaze with determination, bodies sculpted through relentless training and discipline. For every hour spent under the watchful eye of their centurions, a hundredfold more were devoted to mastering the art of war, to perfecting the ballet of blade and shield, attaining a synergy of mind, body, and spirit that transcended mortal limitations.

Thus, the 9th Legion became synonymous with resilience, power, and precision, qualities that reverberated through the ages, beckoning greatness.

But fate, fickle as ever, wove a different thread. In the wilds of Caledonia, amidst the swirling mist and treacherous terrain, the legion vanished without a trace. Five thousand souls, swallowed by the fog, their fate a riddle to confound generations.

Yet, as time's wheel turned, the memory of the 9th Legion refused to fade. It lingered a spectre, a whisper, a testament to an era when heroes walked the earth.

Then, in a stroke of fate, the legacy of the 9th Legion was reborn in the form of the Aquila Tourbillon by Baresi & Caine.

## RESILIENCE, POWER & PRECISION

Crafted from the finest Italian marble, each dial bore witness to the legion's resilience, immortalized in stone. The 1ct diamond crown, a symbol of power and majesty, mirrored the spirit of Rome's golden age, a tribute to the empire's enduring legacy.

But it was the Tourbillon movement that captured the essence of the legion, a marvel of precision engineering defying time's onslaught. With a power reserve of over 100 hours, it symbolized the legion's dedication to excellence, a testament to their unwavering commitment.

Inspired by the noble helmets of centurions, the precious metals adorning the Aquila Tourbillon reflected Rome's grandeur, a homage to an era immortalized in history.

Through the ages, the spirit of the 9th Legion lived on in the Aquila Tourbillon. Its legacy intertwined with the present, its valor immortalized. And as the eagle soared, it carried with it echoes of ancient battles and the promise of a timeless legacy.

"Time for all Time," it proclaimed, for in its presence, the past, present, and future converged in a timeless symphony of greatness. Every glance at this watch on the wrist inspires the spirit of the 9th Legion, a reminder of their enduring legacy, a beacon of inspiration for generations to come.

## ELEVATING EXCELLENCE: THE AQUILA TOURBILLON

The Tourbillon, often hailed as the pinnacle of watch movements, finds its ultimate expression in the Aquila Tourbillon crafted by Baresi & Caine. This extraordinary timepiece embodies the culmination of centuries of horological mastery and exemplifies why the tourbillon is revered by connoisseurs worldwide.

Baresi & Caine, renowned for their uncompromising commitment to excellence, have elevated the tourbillon to new heights with the Aquila Tourbillon. Each timepiece, a masterpiece of precision engineering and exquisite design, showcases the brand's dedication to perfection.

At the heart of the Aquila Tourbillon lies the intricate Tourbillon movement, meticulously crafted to defy the limitations of gravity and ensure unparalleled accuracy. With a power reserve of over 100 hours, this mechanical marvel symbolizes the pinnacle of watchmaking innovation, a testament to the ingenuity and expertise of Baresi & Caine's master watchmakers.

Furthermore, the Aquila Tourbillon is adorned with the finest materials, including handcrafted Italian marble dials and a 1ct diamond crown, inspired by the majestic helmets of ancient Roman centurions. This attention to detail and luxurious craftsmanship elevate the Aquila Tourbillon to a level of sophistication and exclusivity unmatched in the world of horology.

The Aquila Tourbillon by Baresi & Caine encapsulates the essence of the tourbillon's significance in watchmaking. It represents the pinnacle of precision, craftsmanship, and timeless elegance, a true testament to why the tourbillon continues to captivate and inspire watch enthusiasts around the globe.

At the heart of this horological marvel lies a groundbreaking feat of engineering, a 1ct diamond set within the crown. This revolutionary innovation not only exemplifies Baresi & Caine's commitment to pushing the boundaries of watchmaking but also sets a new standard of elegance and sophistication. The diamond, serves as a radiant symbol of luxury, elevating the Aquila Tourbillon to unprecedented heights of opulence.

But Baresi & Caine's quest for perfection did not end there. Never content with merely breaking barriers, they sought to imbue their timepiece with a touch of magic, a touch that would make the diamonds come alive after dark. Powered by the sun's energy, the diamonds, along with the hands of the watch, emit a celestial glow, casting a mesmerizing starlight aura that enchants and captivates. In the quiet of the night, the Aquila Tourbillon becomes a beacon of elegance, a testament to the artistry and innovation that define Baresi & Caine's legacy.

Experience the thrill of innovation, the allure of luxury, and the magic of the night with the Aquila Tourbillon by Baresi & Caine. A timepiece that not only tells the time but also weaves a story of innovation, elegance, and eternal beauty.

# MASTERING TIME

## AQUILA TOURBILLON

The Aquila Tourbillon by Baresi & Caine transcends mere timekeeping to embody the pinnacle of craftsmanship and innovation which exemplifies the essence of a tourbillon movement:

1. Purpose Perfected: In the Aquila Tourbillon, the tourbillon movement serves as the beating heart of precision. Developed with meticulous attention to detail, it epitomizes Baresi & Caine's dedication to enhancing timekeeping accuracy through ingenious mechanical engineering.
2. Ingenious Heritage: Baresi & Caine have elevated the tourbillon to new heights of excellence. With a nod to tradition and a vision for the future, the Aquila Tourbillon pays homage to the ingenuity of its forebears while pushing the boundaries of modern watchmaking.
3. Exquisite Construction: Crafted with unparalleled skill and precision, the tourbillon movement within exemplifies the epitome of watchmaking artistry. Each component is meticulously crafted and assembled to exacting standards, ensuring flawless performance and reliability.
4. Aesthetic Splendor: Beyond its functional purpose, the tourbillon movement in the Aquila Tourbillon captivates the eye with its mesmerizing rotation and intricate mechanics. It serves as a testament to Baresi & Caine's commitment to creating timepieces of unparalleled beauty and sophistication.
5. Symbol of Prestige: Owning an Aquila Tourbillon is not merely owning a watch, it's possessing a symbol of prestige and luxury. These timepieces, coveted by collectors and enthusiasts alike, represent the pinnacle of horological excellence and serve as a testament to Baresi & Caine's unwavering dedication to perfection.

The Aquila Tourbillon by Baresi & Caine is more than just a watch, it's a masterpiece of craftsmanship, a testament to ingenuity, and a symbol of timeless elegance. With its tourbillon movement at its core, it stands as a beacon of excellence in the world of haute horlogerie, inviting you to embark on a journey of unparalleled luxury and sophistication.

TIME FOR ALL TIME.

## BC102T IN-HOUSE MOVEMENT

The Aquila Tourbillon by Barasi & Caine is a masterful fusion of advanced horology and everyday resilience.

At its heart lies the BC102T tourbillon movement, a high-precision caliber built from premium in-house components. Its unique architecture features a free-sprung balance wheel that enhances isochronism for enduring accuracy and stability. The absence of a traditional regulator improves the durability of the Swiss-made non-metallic alloy hairspring and long-term precision. Carefully adjusted in six positions, the BC102T achieves an accuracy of  $-3$  to  $+7$  seconds per day.

The off-centered, single large barrel provides an impressive 105-hour power reserve while preserving the movement's thin profile. Engineered for real-world durability, the BC102T features robust technical specifications uncommon in tourbillon calibers. Non-magnetic components, including a Glucydur balance wheel with gold adjustment masses and LiGA-fabricated micro-components, allow it to withstand magnetic fields up to 2,000 Gauss.

Its tourbillon cage bridge, combined with advanced shock absorbers, is impervious to vibrations, shocks, and acceleration forces up to 5,000 Gs in all directions. The escapement, a major energy consumer, is refined through sophisticated LiGA technology to minimize friction and maximize efficiency, ensuring long-term mechanical integrity and exceptional chronometric performance.

## PIECE UNIQUE

At Baresi & Caine, we understand that certain milestones deserve more than celebration, they deserve to be immortalised. A bespoke timepiece is not just a watch; it is a symbol of success, individuality, and enduring legacy.

Our journey with each client begins with a private consultation, where we explore their vision, their achievements, and the story they wish to tell. From this moment, the creation of a pièce unique begins, a truly personal watch designed exclusively for them.

Every element is considered: From the selection of rare marbles and precious metals to the incorporation of gemstones such as Ruby, Sapphires, Emeralds, or Diamonds, each detail is chosen to reflect the wearer's identity. The design is refined alongside the client, ensuring their personal imprint is present in every line, every texture, every stone.

Once crafted, each watch carries a unique serial number registered exclusively to its owner, making it a testament to both craftsmanship and individuality.

Our clientele includes world-champion superbike riders, elite F1 Teams, global sports icons, and celebrated musicians, all entrusting Baresi & Caine to encapsulate their journey in exquisite form.

At Baresi & Caine, your legacy is our blueprint, and your watch is its enduring signature.

THE WORLD OF BARESI & CAINE

## REDEFINING GLOBAL LUXURY

In the realm of luxury timepieces, Baresi & Caine stands as a beacon of unparalleled craftsmanship and timeless elegance. With each passing day, the brand's presence is felt more profoundly on the global stage, as it garners attention from celebrities, watch collectors, and influencers alike. As the word spreads, Baresi & Caine has found its way onto the wrists of celebrities and cultural icons, who recognize the inherent value and elegance of these exquisite timepieces. From red carpet events to intimate gatherings, Baresi & Caine watches have become synonymous with effortless style and sophistication. But it's not just celebrities who have taken notice. Watch collectors, with their discerning eye for craftsmanship and design, have also turned their attention to Baresi & Caine. With each new collection, the brand continues to push the boundaries of innovation, offering timepieces that are as technically superior as they are aesthetically captivating.

As Baresi & Caine continues to make waves in the world of luxury watches, its journey is far from over. With each passing moment, the brand solidifies its position as a global icon of timeless elegance and sophistication, leaving an indelible mark on the world of horology and beyond.
